

Title : Worksheets 12.2

Aim : Explore the median for data set

1. Write down the numbers on the cards you have set up (such as step 4) in the space provided and note the number in the middle.

--	--	--	--	--	--	--	--	--

(a) Number of cards = _____ *(even / odd)

*outline the correct answer

(b) Circle and note the middle number.

2. Write down the number on the card you are stacking (like step 5) after the card you put in the space provided. Note the two numbers in the middle and find the average number.

--	--	--	--	--	--

(a) Number of cards = _____ *(even / odd)

*outline the correct answer

(b) What was the 2 number of cards that are in the middle ?

--	--

Average that 2 number =
$$\frac{\boxed{} + \boxed{}}{2}$$

= _____
